

# HORTON & CO. DESIGN

## Who are we?

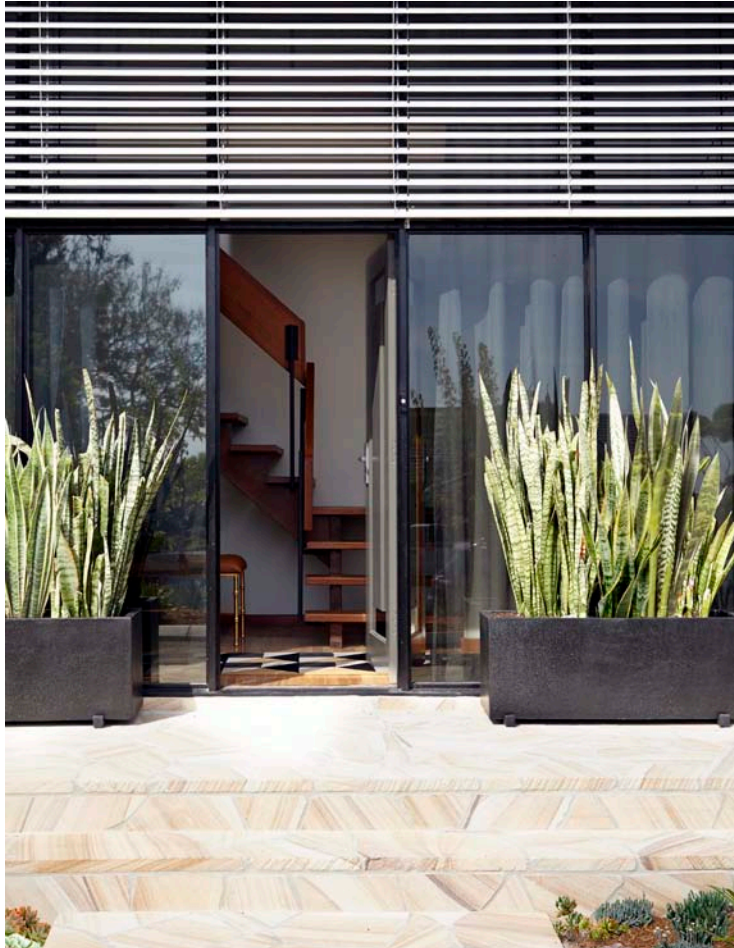

Horton & Co. is an Interior Design practice based in Newcastle, Australia. We are committed to creating original and distinctive design solutions to our client's design problems. At Horton & Co. we believe that everyone deserves to live and work in spaces that bring pleasure and joy to their lives and that with creativity good design is achievable on any budget.

Horton & Co. interiors are known for their contemporary, layered, eclectic approach, reflecting a strong individual style. Horton & Co. was established by Interior Designer Stewart Horton after returning to his hometown of Newcastle. Stewart spent many years working with a renowned Sydney-based Interior Designer where many projects were shortlisted for major design awards and featured in national and international design publications such as Belle, Vogue Living, Wallpaper and House & Garden magazines.

## What to expect

Our initial meeting is never billed. We are always happy to meet with you to discuss a brief, to go through your wants and needs and to fully flesh out your expectations. Based on the initial meeting we will tailor a fee proposal that suits the scope of work you are proposing. When you are happy to proceed we get together again to go through all the details and from there the exciting process begins. Being a boutique sized firm there is always someone available to field any questions or concerns you might have.

# HORTON & CO. DESIGN

## **What we do**

Horton & Co. works on residential, commercial, retail and hospitality design projects around the country. The practice offers a full design service for its clients from concept design, documentation and council approvals, through to construction administration, as well as interior decoration. The firm has extensive experience working closely with other industry consultants such as architects, builders & suppliers.

Horton & Co. will tailor a package to suit your needs working tirelessly to ensure the highest quality of service for your project whatever the budget is. We offer design packages from concept design through to fully detailed documentation and can tender your project to ensure the best outcome between you and a builder.

## **Designing and tendering your project**

We offer design packages for commercial, retail and residential fitouts from concept design through to fully detailed documentation.

## **Administering your contract**

We can administer all contractors to ensure the project runs smoothly and in accordance with the design, documentation and authority approvals.

## **Development and approvals**

We can prepare all documentation for council submission including Development Approvals, Construction Certificates etc and act as a go-between with any relevant consultants.
